

## Ekene Osinubi (BSc., EMBA)

**Email:** [ekene.osinubi@yahoo.com](mailto:ekene.osinubi@yahoo.com)

**Phone:** +234 08029662995

**LinkedIn:** <https://www.linkedin.com/in/ekene-osinubi/>

Ekene is an experienced engineer with over 25 years in the Oil and Gas industry, most of which was with ExxonMobil. She has acquired skill sets across multiple disciplines such as Facilities Engineering, Reservoir Engineering, Cost and Schedule, Project Management, Business Management, Safety Management.

She is experienced in leadership of large, multi-disciplinary teams, and has worked in a varied portfolio of projects ranging from <\$5M to \$1.9 Billion. Experience covers a wide range of offshore projects from risers, slot addition, pigging, platform restorations to pipeline replacements. Recognized consistently all through her career as possessing strong inter-personal skills, committed to excellence and flawless execution of team goals. She consistently demonstrates the ability to acquire new skills and take on new challenges.

Ekene holds a B.Sc. in Chemical Engineering from Obafemi Awolowo University. After a career with ExxonMobil, in order to further broaden skills, she enrolled in the Executive MBA program at the Lagos Business School. In October 2022, Ekene achieved the lifetime **Beta Gamma Sigma** membership due to excellent performance in the business program. Areas excelled in include Financial Accounting /Management, Strategic Management, Operations Strategy, Human Behavior in Organizations, Economic Environment of Global Business, and Entrepreneurship.

Other notable educational achievements include Enterprise Leadership Program, UNC Kenan-Flagler Business School; Project Management Leadership, UNC Kenan-Flagler Business School; Project Management Life Cycle, Rochester Institute of Technology /edX; Pan African Executive MBA Module, IESE Business School; Advanced Contracts Strategy & Management within ExxonMobil.

As President of the Women's Interest Network (WIN) in ExxonMobil Nigeria from 2017 to 2018, she chaired the flagship program 'Introduce a Girl to Science and Engineering' targeting female secondary school students in the indigent community.

Passionate about mentorship, she has engaged in engineering career talks at Day Waterman College, Abeokuta and Meadow Hall School, Lagos. She is a member of the Society of Petroleum Engineers and hobbies include tennis, horticulture, cooking and traveling.

### WORK EXPERIENCE

Ekene started work with ExxonMobil, Eket in 1996 as a **Facilities Engineer**. She was the dedicated Facilities Engineering resource to the Inim /Enang offshore fields with a steady oil production of 30 kBD. The fields comprised of 2 Production Platforms and 7 Well Head Platforms.

Ekene functioned as a **Reservoir Engineer** from 2001 to 2005, responsible for the 17kBD Adua field. Experience included reservoir /wells surveillance programs to sustain 17kBD oil production; reserves assessment; as well as core analysis, resination and preservation.

She was a **Senior Production Engineer** from 2006 to 2009, and achievements included effective reservoir /wells surveillance of an 18 kBD oil field, as well teamwork leading to addition of 16kBD oil via drill wells and workovers in the Asabo field.

Her experience in Oil and Gas also covered **Project Management** within the Nigeria Projects Organization (NPO) from 2009 to 2017.

Roles that she took on within the Projects Organization included – Functional **Business Manager / Cost & Schedule Supervisor**; Business Manager for the Offshore & Revamp Programs; Cost & Schedule Lead for the Pipeline Program.

Some accomplishments in NPO were - Supervision of estimate development and Project Controls for multiple projects, some valued at \$1Billion<sup>+</sup>; Successfully managed /led a multi-disciplinary group comprising of Cost & Schedule, Contract Administration, Accounting, Document Control and Material Expediting teams to achieve team goals; Managed Organizational Structure and People Development; Partner and Stakeholders' engagements.

She left ExxonMobil in 2019 after a long and successful career. Her last role was that of the **Upstream Nigeria Projects SHE Manager**. This involved stewardship of safety programs, initiatives and incident management across the office and over 23 offshore work sites for the Nigeria Projects Organization (NPO).

Ekene is married with three children. She brings to bear vast experience, transferrable skills across the industry, ability to create value in an ethical manner, and a strong drive for excellence in all pursuits.
